High-Definition Fiberglass Doors

2700 SERIES

Wind can be unpredictable and destructive, which is why we developed our super-resilient Windbreaker Series. Windchamber-tested for increased wind-load resistance, this extra-sturdy series provides enhanced defense against the elements. For better protection and maximum strength, just look for the Windbreaker seal – Superior Protection Provided by C.H.I.

Defined. Intriguing.

Your home reflects who you are and allows you to make the statement you choose. As the largest door on your home, your garage door provides a unique opportunity to showcase your style. C.H.I. has a sophisticated line of doors for homes that require more than the standard look. Not only does the 2700 series boast an intriguing appearance, but it's also energy-efficient with a thermally-broken polyurethane core, providing a superior insulation rating and optimum protection from the outside elements.

Created for those who choose to create a statement.

2700 SERIES HIGHLIGHTS. 1 Crisp lines and shadows provide definition to enhance the homeowner's ability to add curb appeal and increase the value of their home. 2 Models 2701-02-03 and 2751-52 have a premium urethane core that is injected between a highly impact-resistant fiberglass face and interior steel skin. This design offers a high calculated R-Value* of 16.95 and additionally protects with a tongue and groove, thermally-broken section joint. 3 A white, 25-gauge interior steel skin finishes off the design creating a clean, durable finish to the interior of the garage.

2700 FEATURES

- The sections are 2" thick with a formed fiberglass face and a 25-gauge flush steel interior skin that is factory-finished in white
- Exterior skins are factory-finished in six designer colors: white, almond, evergreen, mahogany, walnut and oak with optional wood-tone available in oak, mahogany and walnut
- Unfinished (tan) exterior skins are available for field gel staining
- Optional 1/2" insulated designer lites** are available with a beveled acrylic face and 1/8" DSB obscure glass back with brass or platinum caming
- Thermally-broken for optimum weather protection
- Concealed steel plates run continuously from top to bottom of each section for fastening hardware
- White painted end stiles
- Bottom weather seal utilizes an aluminum retainer and extruded virgin vinyl
- Available widths for all models: 8', 9', 10', 12', 16' and 18'
- All models available heights: 7' to 14' in 3" height increments (except 8'3", 8'6" and 10'3")
- Models 2701-02-03, 2751-52 R-Value* - 16.95**
- Models 2761-62 R-Value - 8.20**

*R-Value testing is in accordance with ASTM C518 standards.
 **Designer Lites not available in models 2751 or 2761.

Note: Unfinished doors are for field gel staining only. Follow directions provided by gel stain manufacturer. If field painting is desired, the door must be factory finished (painted) prior to any painting in the field. Use only oil based or 100% acrylic house paint when repainting doors.

All information presented is based on the specifications and features available at the time of printing and is subject to change without notice.
